

ADIRONDACK WILD
FRIENDS OF THE FOREST PRESERVE

THE ADIRONDACK PARK IS A GLOBAL MODEL.

IN A TIME OF CLIMATE CHANGE, THE WORLD
LOOKS TO THE ADIRONDACK PARK
FOR VISION AND LEADERSHIP IN LAND-USE PLANNING.

**AS A WORLD-CLASS PARK, AND ONE OF THE GLOBE'S LARGEST BIOSPHERE RESERVES,
IT'S TIME FOR THE NEW YORK STATE'S APA AND DEC TO GET SERIOUS ABOUT:**

- **Planning** to mitigate and adapt to climate change
- **Measuring** ecosystem health and integrity, causal factors, and rates of change
- **Requiring** conservation design of all major backcountry subdivisions
- **Preserving** all of our wildest lakes
- **Advancing** conservation of all water bodies
- **Understanding** and promoting the many ecosystem service values, community and economic benefits of wild land conservation
