

# PATHWAYS TO A CONNECTED ADIRONDACK PARK

Plains of Abraham. Photo © Ken Rimany.

What information and tools can be employed at the grass-roots level to better harmonize natural and human landscapes in the Adirondack Park? Adirondack Wild's focus on this question has resulted in a new publication to be released for this Spring.

For years, conservation biologist Dr. Michael Klemens has helped local communities work together to apply ecological information to improve land-use planning across town boundaries.

Now, Dr. Klemens and Adirondack Wild make this publication available to help localities and landowners take practical steps to achieve better land-use decisions.

To receive your FREE copy, visit our website and watch for the release of *Pathways to a Connected Adirondack Park* at [www.adirondackwild.org](http://www.adirondackwild.org). While you're there, we also invite you to become a member, make a donation, or sign up for our award-winning eNewsletter, *Dialogue for the Wild*.
